# How are the proposals evaluated?

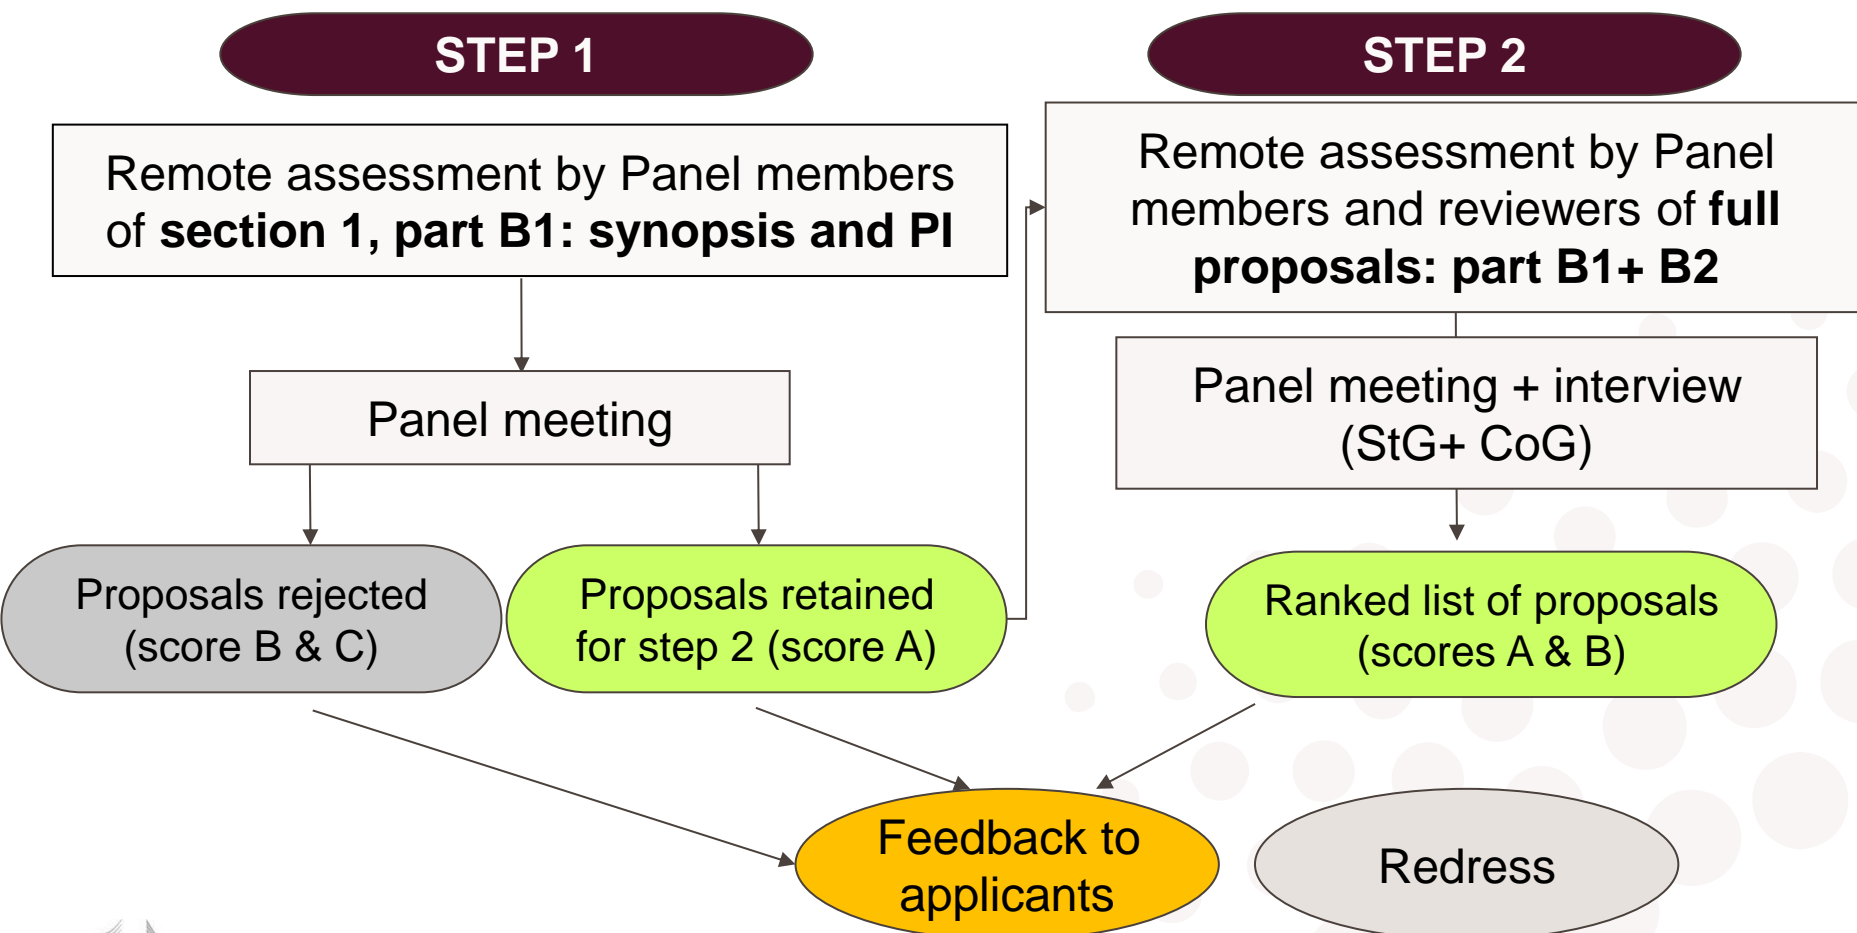

Evaluation procedure – StG, CoG and AdG calls

Single submission, but a two-step evaluation

European Research Council

Established by the European Commission

# What is evaluated?

**Excellence is the sole evaluation criterion**  
**check the criteria in the Work Programme!**

European Research Council

Established by the European Commission

## Excellence of the Research Project

- ✓ **Ground breaking nature** Important challenge? Substantially beyond the current state of art? High-gain/high-risk balance
- ✓ **Potential impact** Possibility of a major break-through?
- ✓ **Scientific Approach Feasibility, novel concepts/methodology**

## • Excellence of the Principal Investigator

- ✓ **Intellectual capacity:** Track-record, capacity to go significantly beyond the state of the art, evidence of creative independent thinking
- ✓ **Creativity**
- ✓ **Commitment :** Willing to devote a significant part of PI's working time (minimum of 50% for Starting, minimum of 40% for Consolidator Grant, minimum of 30% for Advanced Grant)

Referees and panels **evaluate and score** each criterion, which results  
**in a ranking** of the proposals.

# Preparing an application

## Hints and tips (Generalities)

European Research Council  
Established by the European Commission

- **Register early**, get familiar with the system and templates and start filling in the forms
- A submitted proposal can be **revised until the call deadline** by submitting a new version and overwriting the previous one
- Follow the formatting rules and page limits.
- Download and proof-read the proposal before submitting.
- Make use of the **help tools and call documents** (Information for Applicants, Work Programme, Frequently asked questions) to prepare your proposal
- Talk to the National Contact Points and your University grant

# Submission of Proposals

## Differences in Part B1 and Part B2

In Step 1: **Panel members** (generalists and with multidisciplinary approaches) see only **Part B1** of your proposal: Prepare it accordingly!

- Pay particular attention to the **ground-breaking nature** of the research project – no incremental research. State-of-the-art is not enough. Think big!
- Know your competitors – what is the **state of play** and why is your idea and scientific approach outstanding?
- Only the extended Synopsis is read at Step 1: **concise and clear presentation** is crucial (evaluators are not necessarily all experts in the field)
- Outline of the **methodological approach** (feasibility)
- Show your **scientific independence** in your CV (model CV provided in the part B1 template)
- Avoid any suspicion of **plagiarism**

# Submission of Proposals

## Differences in Part B1 and Part B2

European Research Council

Established by the European Commission

- In Step 2: Both **Part B1 and B2** are sent to specialists around the world (**specialised external referees**)
  - Do not just repeat the synopsis
  - Provide **sufficient detail** on methodology, work plan, selection of case studies etc. (15 pages)
  - Check coherency of figures, **justify requested resources**
  - Explain **involvement of team members**
  - Provide alternative strategies to **mitigate risk**

# Resubmission restrictions

European Research Council

Established by the European Commission

- Ever increasing number of applications causes low success rates and high panel workload
- For 2014 call applicants:
  - those who receive a B (Step 1 or Step 2) have to wait out one year
  - those who receive a C will have to wait out two years
  - rule maintained in 2015

# Main features in 2015

- Continuity, continuity, continuity
- Strict resubmission restrictions – as in 2014
- Recommended model CV
- Obligation for Open Access
- 25 % HI overhead
- Funding ID in part B1
- Cross-domain explanation to be provided in part B1

### ERC Funded Projects

The ERC operates according to an "investigator-driven", or "bottom-up", approach, allowing researchers to identify new opportunities in any field of research. Accordingly the portfolio of ERC funded projects spans a wide range of topics and research questions.

Since 2007, more than **4,500 projects** have been selected to receive ERC funding throughout the EU Member States and the associated countries. The ERC has received over **43,000 project proposals** for its calls.

**You can use the menu on the left to search quickly and easy ERC funded projects.**

Projects can be filtered according to: **Funding scheme**, **Research area (Panels/Domains)**, **Country of Host Institution** and/or **free keyword(s)**.

Information displayed is automatically updated through the information available on the **CORDIS** platform.

Please note that only funded projects, whose grant agreements have been signed, appear in this database. For this reason, the total number of projects in this database may differ from the figures provided in the statistics section which include also projects selected for funding whose grant agreements have not been signed yet.

For specific queries, please use this **contact form** and select the category "Web".

Menu allows  
searching by
